The huge loan expansion was accepted as a demonstration of the dimensions of the heavy requirements which stand ready to rush into the money market to take up any available resources offered there.

The week's loan increase of \$36,966,300 compares with a previous record of \$31,474,000 for the week ending Jan. 21, 1904, when great syndicate borrowings were the influences in the money market. An analysis of the statement of the individual bank returns in this week's statement shows that five of the largest bankers have increased loans upwards of \$23,400,000 and the well known financial returns of some of these banks make it (vident that the payment of \$24,000,000 of subscriptions to Great Northern preferred stock was involved in this portion of the lean expansion. New York, April 13.-The statement of New 107k, April 13.—The statement of the clearing house banks for the week hows that the banks hold \$15,825,925 more han the legal reserve required. This is decrease of \$3,588,380 as compared with ast week. The statement:

Loans, \$1,099,657,100; increase, \$36,968,300.

Deposits, \$1,081,681,900; increase, \$44,948,-90.

Att, 150 The Financier says: The official bank atement was somewhat of a surprising chibit, chiefly because of the large exansion of \$38,968,300 in loans, though, maidering the fact that immediately preding exhibits have failed fully to rest in this item, the increase therein. ceding exhibits have failed fully to relect. in this item, the increase therein which was reasonably expected as the reluct of loaning operations on the stock exchange, the augmentation of loans last week may be regarded as largely due to the adjustment of averages of recent weeks, and therefore readily explainable. The increase in cash last week was \$7.48,900, a sum more than double that which was estimated on the basis of the traceable movements of money; the discrepancy in this item may have been aused by the brigging over of previously unreported averages. Deposits increased \$44,948,800, which amout closely grees with the sum of the 'ncrease in oans and the gain in cash; therefore the statement made a good proof. The equired reserve against general deposits was augmented \$11,237,200, deducting from which the increase in cash left \$3,588,300 LIVESTOCK MARKETS.
